

ELCA is one of Switzerland's biggest Information Technology Companies. Since the company was founded in 1968, we have offered our customers a single source for the complete spectrum of IT services including consulting, development and operations. Our team of over 2000 specialists advises companies on the best use of modern information technologies, develops and implements efficient and stable solutions and applies our know-how to ensure excellence in use.

**In this role**

- Develop innovative web applications, using state-of-the-art tools and agile methodologies.
- Work with an international and multidisciplinary team of business analysts, architects and developers, located in Madrid and Zurich.
- Be involved in the complete project lifecycle, from requirements analysis to final delivery.

**What we offer**

- Ample opportunities to expand your knowledge and experience by working on a broad range of exciting projects, customers and technologies.
- Attractive prospects for career and personal development through training and coaching.
- A flat hierarchy and a culture of collaboration across all disciplines.
- A challenging and professional working environment in a dynamic international team with extensive expertise
- Exciting projects with latest technologies
- Flexible working hours, excellent team spirit and others benefits
- Good work-life balance (2 days per week from home)
- Office Located: Madrid center - Recoletos

**About Your Profile**

For this vacancy, we expect a candidate with an academic degree (university, applied sciences or equivalent) which had already some experience in the Web-Frontend area and backend development, or which is extremely motivated to get in touch with those topics. You are quality driven, you have good communication skills and a distinct customer orientation. You are a team player and happy to learn from experts:

**Expected Base Experience**

- Experience in Java development.
- Experience in Javascript development
- Experience with HTML, CSS.
- Clean and maintainable code writing.
- English: B2

**Considered a plus**

- Working experience with a source code version control system such as Git.

**If you are INTERESTED in applying for this position, please send us your complete application (CV, cover letter, letter of reference, diplomas and certificates).**
